

THE LONG-TERM IMPACT OF CHILDHOOD TRAUMA

Presented by MARY WILSON

Please join us for this presentation, which will include a look at the Adverse Childhood Experiences Study (ACE Study) and a discussion of the long-term health impact of these experiences. Wilson will also examine the effects of toxic stress on a developing brain and discuss Protective Factors that can build resiliency in children and adults.

MONDAY, MAY 18
7:00 P.M.
OLD TOWN PUBLIC LIBRARY

**Co-sponsored by The Old Town Museum and
The Old Town Public Library**
